

Key Information Document ("KID")

Purpose

This document provides you with key information about this investment product. It is not marketing material. The information is required by law to help you understand the nature, risks, costs, potential gains and losses of this product and to help you compare it with other products.

Product

Product name	Autocallable Barrier Note Linked to a Basket of Ordinary Shares
Product identifier	ISIN: XS1837215422 Series number: CGMFL4007
PRIP manufacturer	Citigroup Global Markets Limited (http://www.citigroup.com/). The product issuer is Citigroup Global Markets Funding Luxembourg S.C.A. with a guarantee by Citigroup Global Markets Limited. Call +44 (0)20 7500 8371 for more information.
Competent authority of the PRIP manufacturer	Authorised by the U.K. Prudential Regulation Authority and regulated by the U.K. Financial Conduct Authority and U.K. Prudential Regulation Authority
Date and time of production	16 July 2018 10:47 Frankfurt am Main local time

You are about to purchase a product that is not simple and may be difficult to understand.

1. What is this product?

Type

English law governed notes

Objectives

The product is designed to provide a return in the form of a cash payment on termination of the product. The timing and amount of this payment will depend on the performance of the **underlyings**. The product has a fixed term and will terminate on the **maturity date**, unless terminated early. If, at maturity, the **worst performing underlying** has fallen to or below its **barrier price**, the product may return less than the **product notional amount** or even zero.

Early termination following an autocall: The product will terminate prior to the **maturity date** if, on any **autocall observation date**, the **reference price** of the **worst performing underlying** is at or above the relevant **autocall barrier price**. On any such early termination, you will on the immediately following **autocall payment date** receive a cash payment equal to the applicable **autocall payment**. The relevant dates, **autocall barrier prices** and **autocall payments** are shown in the table(s) below.

Autocall observation date	Autocall barrier price		Autocall payment date
	<i>E.ON SE</i>	<i>RWE AG</i>	
5 August 2019	100.00%*	100.00%*	12 August 2019
3 August 2020	85.00%*	85.00%*	10 August 2020
3 August 2021	75.00%*	75.00%*	10 August 2021
3 August 2022	65.00%*	65.00%*	Maturity date

* of the **initial reference price** of the relevant **underlying**.

Termination on the maturity date: If the product has not terminated early, on the **maturity date**, you will receive:

- if the **final reference price** of the **worst performing underlying** is above its **barrier price**, a cash payment equal to EUR 1,000.00; or
- if the **final reference price** of the **worst performing underlying** is at or below its **barrier price**, a cash payment directly linked to the performance of the **worst performing underlying**. The cash payment will equal (i) the **product notional amount** multiplied by (ii) (A) the **final reference price** of the **worst performing underlying** divided by (B) its **strike price**.

Under the product terms, certain dates specified above and below will be adjusted if the respective date is either not a business day or not a trading day (as applicable). Any adjustments may affect the return, if any, you receive.

The product terms also provide that if certain exceptional events occur (1) adjustments may be made to the product and/or (2) the product issuer may terminate the product early. These events are specified in the product terms and principally relate to the **underlyings**, the product and the product issuer. The return (if any) you receive on such early termination is likely to be different from the scenarios described above and may be less than the amount you invested.

You do not have any entitlement to a dividend from any of the **underlyings** and you have no right to any further entitlement resulting from any such **underlying** (e.g., voting rights).

Underlyings	Ordinary shares of E.ON SE (EOAN; ISIN: DE000ENAG999; Bloomberg: EOAN GY Equity; RIC: EONGn.DE) and RWE AG (RWE; ISIN: DE0007037129; Bloomberg: RWE GY Equity; RIC: RWEG.DE)	Barrier price	59.00% of the initial reference price
Underlying market	Equity	Reference price	The closing price of an underlying as per the relevant reference source
Product notional amount	EUR 1,000.00	Reference source	• EOAN: Xetra • RWE: Xetra
Issue price	100.00% of the product notional amount	Final reference price	The reference price on the final valuation date
Product currency	Euro (EUR)	Initial valuation date	3 August 2018
Underlying currencies	• EOAN: EUR • RWE: EUR	Final valuation date	3 August 2022
Issue date	10 August 2018	Maturity date / term	10 August 2022
Initial reference price	The reference price on the initial valuation date	Autocall payments	On the first autocall payment date , EUR 1,075.00; thereafter increasing by

EUR 75.00 on each subsequent **autocall payment date**

Strike price	100.00% of the initial reference price	Worst performing underlying	For purposes of the payment at maturity: The underlying with the worst performance between the initial reference price and the final reference price For all other purposes: For a given date, the underlying with the worst performance between the initial reference price and the relevant reference price
---------------------	---	------------------------------------	--

Intended retail investor The product is intended to be offered to retail investors who fulfil all of the criteria below:

- they have the ability to make an informed investment decision through sufficient knowledge and understanding of the product and its specific risks and rewards, with experience of investing in and/or holding a number of similar products providing a similar market exposure, either independently or through professional advice;
 - they seek capital growth, expect the movement in the underlying to perform in a way that generates a favourable return, have an investment horizon of the recommended holding period specified below and understand that the product may terminate early;
 - they accept the risk that the issuer or guarantor could fail to pay or perform its obligations under the product and they are able to bear a total loss of their investment; and
 - they are willing to accept a level of risk to achieve potential returns that is consistent with the summary risk indicator shown below.
- The product is not intended to be offered to retail clients who do not fulfil these criteria.

2. What are the risks and what could I get in return?

Risk indicator

The summary risk indicator is a guide to the level of risk of this product compared to other products. It shows how likely it is that the product will lose money because of movements in the markets or because we are not able to pay you.

We have classified this product as 6 out of 7, which is the second-highest risk class. This rates the potential losses from future performance at a high level, and poor market conditions are very unlikely to impact our capacity to pay you.

Be aware of currency risk: If the currency of your account is different to the currency of this product, you will be exposed to the risk of suffering a loss as a result of the conversion of the currency of the product into the account currency. This risk is not considered in the indicator shown above.

This product does not include any protection from future market performance so you could lose some or all of your investment.

For detailed information about all risks relating to the product please refer to the risk sections of the prospectus and any supplements thereto as specified in the section "7. Other relevant information" below.

Performance scenarios

Investment: EUR 10,000				
Scenarios		1 year	2 years	4 years (Recommended holding period)
Stress scenario	What you might get back after costs	EUR 1,384.87	EUR 1,198.36	EUR 550.26
	Average return each year	-86.15%	-65.38%	-51.57%
Unfavourable scenario	What you might get back after costs	EUR 4,646.17	EUR 3,639.74	EUR 2,166.74
	Average return each year	-53.54%	-39.67%	-31.77%
Moderate scenario	What you might get back after costs*	EUR 7,728.82	EUR 7,934.08	EUR 10,750.00
	Average return each year	-22.71%	-10.93%	1.82%
Favourable scenario	What you might get back after costs**	EUR 10,724.18	EUR 11,102.35	EUR 12,250.00
	Average return each year	7.24%	5.37%	5.20%

* This scenario assumes that the product early terminates in August 2019 and you do not reinvest the proceeds.

** This scenario assumes that the product early terminates in August 2021 and you do not reinvest the proceeds.

This table shows the money you could get back over the next 4 years under different scenarios, assuming that you invest EUR 10,000. The scenarios shown illustrate how your investment could perform. You can compare them with the scenarios of other products. The scenarios presented are an estimate of future performance based on evidence from the past on how the value of this investment varies, and are not an exact indicator. What you get will vary depending on how the market performs and how long you keep the product. The stress scenario shows what you might get back in extreme market circumstances, and it does not take into account the situation where we are not able to pay you. In addition, you should note that the results shown for the intermediate holding periods do not reflect estimates of the product's future value. You should therefore not base your investment decision on the results shown for these interim holding periods.

The figures shown include all the costs of the product itself, but may not include all the costs that you pay to your advisor or distributor. The figures do not take into account your personal tax situation, which may also affect how much you get back.

3. What happens if the manufacturer is unable to pay out?

You are exposed to the risk that the issuer or guarantor might be unable to meet its obligations in connection with the product for instance in the event of bankruptcy or an official directive for resolution action. This may materially adversely affect the value of the product and could lead to you losing some or all of your investment in the product. The product is not a deposit and as such is not covered by any deposit protection scheme.

4. What are the costs?

The Reduction in Yield (RIY) shows what impact the total costs you pay will have on the investment return you might get. The total costs take into account one-off, ongoing and incidental costs.

The amounts shown here are the cumulative costs of the product itself, for three different holding periods. They include potential early exit penalties. The figures assume you invest EUR 10,000. The figures are estimates and may change in the future.

Costs over time

<i>Investment: EUR 10,000</i>			
<i>Scenarios*</i>	<i>If you cash in after 1 year</i>	<i>If you cash in after 2 years</i>	<i>If you cash in at the end of the recommended holding period</i>
Total costs	EUR 747.59843	EUR 764.57728	EUR 889.23777
Impact on return (RIY) per year	7.47598%	4.19314%	2.04339%

* The costs are calculated on the basis that the product early termination feature activates in August 2019 and that you do not reinvest the proceeds.

The costs shown in the table above represent how much the expected costs of the product would affect your return, assuming the product performs in line with the moderate performance scenario. Disregarding the impact on your return in that scenario, the estimated entry and exit costs as a percentage of the **product notional amount** are estimated to be 8.64% if you cash in after year 1, 8.64% if you cash in after 2 years and 7.64% if you cash in after the recommended holding period.

The person selling you or advising you about this product may charge you other costs. If so, this person will provide you with information about these costs, and show you the impact that all costs will have on your investment over time.

Composition of costs

The table below shows:

- The impact each year of the different types of costs on the investment return you might get at the end of the recommended holding period.
- The meaning of the different cost categories.

The table shows the impact on return per year.

One-off costs	<i>Entry costs</i>	2.04339%	The impact of the costs already included in the price.
	<i>Exit costs</i>	0.00%	The impact of the costs of exiting your investment when it matures.
Ongoing costs	<i>Other ongoing costs</i>	0.00%	The impact of the costs that we take each year for managing your investments.

The costs shown in the table above represent the split of the reduction in yield shown in the costs over time table at the end of the recommended holding period. The split of the actual estimated costs of the product as a percentage of the **product notional amount** is estimated to be as follows: entry costs: 7.64% and exit costs: 0.00%.

5. How long should I hold it and can I take money out early?

Recommended holding period: 4 years

The product aims to provide you with the return described under "1. What is this product?" above. However, this only applies if the product is held to maturity. It is therefore recommended that the product is held until 10 August 2022 (maturity).

The product does not guarantee the possibility to disinvest other than by selling the product either (1) through the exchange (if the product is listed) or (2) off-exchange, where an offer for such product exists. No fees or penalties will be charged by the issuer for any such transaction, however an execution fee might be chargeable by your broker if applicable. By selling the product before its maturity, you may receive back less than you would have received if you had kept the product until maturity.

Exchange listing	Irish Stock Exchange - All Market	Last exchange trading day	10 August 2022
Smallest tradable unit	EUR 1,000.00	Price quotation	Percentage

In volatile or unusual market conditions, or in the event of technical faults/disruptions, the purchase and/or sale of the product can be temporarily hindered and/or suspended and may not be possible at all.

6. How can I complain?

Any complaint regarding the conduct of the person advising on, or selling, the product can be submitted directly to that person.

Any complaint regarding the product or the conduct of the manufacturer of this product can be submitted in writing at the following address: Citigroup Centre, Canary Wharf, 33 Canada Square, London, E14 5LB, United Kingdom, by email to: EMEA.Markets.Complaints@citi.com or at the following website: <http://www.citigroup.com/>.

7. Other relevant information

The information contained in this Key Information Document does not constitute a recommendation to buy or sell the product and is no substitute for individual consultation with your bank or advisor.

The offering of this product has not been registered under the U.S. Securities Act of 1933. This product may not be offered or sold, directly or indirectly, in the United States of America or to U.S. persons. The term "U.S. person" is defined in Regulation S under the U.S. Securities Act of 1933, as amended.

Any additional documentation in relation to the product, in particular, the issuance programme documentation, any supplements thereto and the product terms are published on <http://www.citigroup.com/>, all in accordance with relevant legal requirements. These documents are also available free of charge from Citigroup Centre, Canary Wharf, 33 Canada Square, London, E14 5LB, United Kingdom.
